Monday: 9AM-6PM
Tuesday: 8AM-5PM
Wednesday: 8AM-5PM
Thursday: 8AM-3PM
Friday: By Appointment

A Word from Dr. Mandras...

When I took over the practice in April 2011, I never expected such a warm welcoming from the patients. From day one I have been motivated to continue the excellence and superior quality of dentistry that Dr. Taneyhill has practiced throughout his time in Bel Air. It has been an exceptional time for me in my career. Working closely with Dr. Taneyhill has been so rewarding, educational and eye-opening. Every day brings a new lesson and no one better to mentor

than Dr. T. We all hope that he hangs around the office for much longer!

As you already know, we have the best staff of any dental office in Harford County. The additions of Judy and Tammy have been tremendous. They connect with our patients almost instantly and both would bend over backwards for any patient. The tone in the office is lighthearted and pleasant and we make it through our days with ease. Becky, Tracy, Marsha and Amy have been lifesavers through the transition and their dedication to the practice is unmatched. Our two hygienists are phenomenal and the assistants care an incredible amount about the patients comfort and well-being.

I want to thank the patients of the practice for giving me a chance to prove myself. It can be very difficult to switch dentists, so if there is ever anything I can do to make you or your family more comfortable, please do not hesitate to contact me personally. As always, we are accepting new patients and our best referrals are from our existing patients. Thank you in advance for your confidence.

Patient Referrals

Your referrals of friends and family mean the world to us!

When you refer someone to our practice with our referral card, we will give you a \$99 credit to your account as our way of saying **THANK YOU!**

Today's Chuckle

A woman and her husband interrupted their vacation to go to the dentist.

"I want a tooth pulled, and I don't want Novocaine because I'm in a big hurry," the woman said. "Just extract the tooth as quickly as possible, and we'll be on our way."

The dentist was quite impressed. *"You're certainly a courageous woman," he said. "Which tooth is it?"*

The woman turned to her husband and said, *"Show him your tooth, dear."*

Patients Are Saying...

"These two are the best dentists ever! A patient of Dr. Taneyhill for 25+ years. First time today with Dr. Mandras to get fitted for a new crown. He did a great job and I couldn't be more thrilled!"

"My favorite dental spa. :)"

Judy Says...

I joined the practice in September 2011 as office manager when Lark retired. I am very pleased with my move to this office. The patients are great and the staff has received me well. The doctors are nice to work with and are very knowledgeable.

I learn something new everyday from them. I have lived in Bel Air with my husband Tony for many years and I have 3 children, a son and 2 daughters. For the past ten years I have been in the dental field in many capacities. I am looking forward to working with Dr. Taneyhill and Dr. Mandras for many years to come.

Tammy Says...

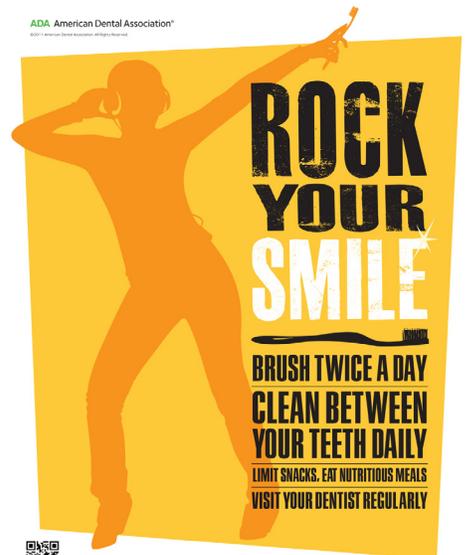

I joined the office around the time that Judy started. Prior to this office I worked with an area oral surgeon. I really like the friendly family oriented atmosphere here at Dr. Taneyhill and Mandras. They both strive to place patient care as their number one priority and making sure that our patients feel comfortable.

My husband Larry and I live in Bel Air and have 2 sons. Although I am new to the office, I do look forward to working here for many years and getting to know all our patients as if they were family.

February is National Children's Dental Health Month

Make sure your kids are up to date with their check-ups and cleanings. Remember, to prevent cavities and gum disease, which affect millions of Americans — including children, good oral hygiene routines should be established as early as infancy and continued throughout life!
